

Riegelschaltkontakt Modell 875
Bolt switch contact, model 875
Contact de pene dormant, modele 875

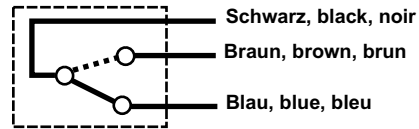

Schaltspannung, operation voltage,
tension de déclenchement max: 42V

Schaltstrom, operation current, courant de déclenchment
R+L Last, R+L load, R+L charge max.:1,5A

Ansprechweg, ca: response distance, appr:
course à vide: environ :3mm

D00148 00

Riegelschaltkontakt Modell 875
Bolt switch contact, model 875
Contact de pene dormant, modele 875

Schaltspannung, operation voltage,
tension de déclenchement max: 42V

Schaltstrom, operation current, courant de déclenchment
R+L Last, R+L load, R+L charge max.:1,5A

Ansprechweg, ca: response distance, appr:
course à vide: environ :3mm

D00148 00

Riegelschaltkontakt Modell 875
Bolt switch contact, model 875
Contact de pene dormant, modele 875

Schaltspannung, operation voltage,
tension de déclenchement max: 42V

Schaltstrom, operation current, courant de déclenchment
R+L Last, R+L load, R+L charge max.:1,5A

Ansprechweg, ca: response distance, appr:
course à vide: environ :3mm

D00148 00

Riegelschaltkontakt Modell 875
Bolt switch contact, model 875
Contact de pene dormant, modele 875

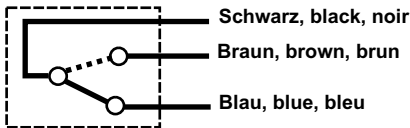

Schaltspannung, operation voltage,
tension de déclenchement max: 42V

Schaltstrom, operation current, courant de déclenchment
R+L Last, R+L load, R+L charge max.:1,5A

Ansprechweg, ca: response distance, appr:
course à vide: environ :3mm

D00148 00

Riegelschaltkontakt Modell 875
Bolt switch contact, model 875
Contact de pene dormant, modele 875

Schaltspannung, operation voltage,
tension de déclenchement max: 42V

Schaltstrom, operation current, courant de déclenchment
R+L Last, R+L load, R+L charge max.:1,5A

Ansprechweg, ca: response distance, appr:
course à vide: environ :3mm
